LOCAL MATTERS.

The popular double breasted coat and vest made of heavy coating—tailor made and sure to fit; 5 grades, in all sizes.

Holmes & Son will save you from 50c to \$1.00 on a hat. An inspection of their stock will satisfy you.

Comb and brush sets in case \$1.00; colored glass water sets \$1.50; The Rooster lamp gives the biggest light. No family should be without a filter; makes city water as pure as spring water. For sale at Wheelock's.

Examine our stock of fur caps, underwear, hosiery, shirts, collars, cuffs, neckties, silk and linen handkerchiefs and full line of gentlemen's goods. We will make it an object for you to trade with us. Respectfully, W. C. Holmes & Son.

The handkerchiefs have come, and they are a fine lot; 50-cent goods for 25 cents. PROMER & ZIEGLER.

Do not pay a big price for a hat. \$1.50 and \$2.00 buys a first class one at Holmes & Son's.

Hong the card for Shurtleff's wagon when in want of oysters or fish.

"Niagara Grapes" at Denniston's.

Delaware Grapes, basket or pound at Denniston's.

Concord Grapes, basket or pound at Denniston's.

California Grapes, basket or pound at Denniston's.

Holmes & Son will sell you a hat cheaper than any other store in the city.

"Your stock of clothing would do credit to Milwaukee or Chicago," is a remark often made to us by parties purchasing goods at our store.

Shurtleff deliver oysters to any part of the city. Orders left at store will receive prompt attention.

Remember that you can find—any kind of an overcoat you want at our store. We have all grades in all styles suitable for all classes—all at uniformly low prices.

Be sure and see the Garland stove before buying any other.

A light colored, dark trimmed bed room suite at Sanborn & Caniff's second hand store; also a black velvet secretary good style and in good condition.

Don't fail to read C. E. Bowles' notices in this column.

Two first premiums on stoves at Rock county fair.

One of the finest homes on "Quality Hill," third ward, can be bought for 75 per cent of its cost. For particulars, C. E. Bowles.

COAL—Order your coal of J. H. Gateley. Leave your orders with W. King.

A very complete line of carriage harnesses and riding saddles, at Jas. A. Fathens corner of Court and Main streets.

House and lot, corner Jackson and Wall streets, for \$1,800.

For SALE—Tobacco warehouse lot also 4, 5, 8, 10, 15 and 16 acre parcels of good tobacco land in or near the city. Some with, some without improvements. Also 80 acre farm, 2 1/2 miles from the city, cheap.

Sample line of wool hosiery at wholesale prices at ARCHIE REID'S.

We guarantee the Garland stove to give satisfaction in every particular. 31 W. Mill st.—Metcalf & Gowdey.

Men's all wool underwear 39c at ARCHIE REID'S.

Light and heavy harness, lap robes and horse clothing at Jas. A. Fathens.

New goods arriving every day at the bookstore of J. SUTHERLAND & SONS.

Great bargains in children's scarlet underwear at Archie Reid's.

For a fine selection of pantaloons goods at prices that defy competition, go to W. C. Holmes & Son.

Ladies' all wool scarlet underwear regular \$1.50 quality only \$1.00 at ARCHIE REID'S.

For the latest novelties call at Sutherland's bookstore.

Work boxes at Sutherland's bookstore.

An elegant display of shawls in camel hair, Persian Paisleys; velvet cashmere and all new styles at bottom prices at ARCHIE REID'S.

Rooms to Rent—On first floor, suitable for dress-making. Enquire at this office.

For SALE, CHAMP—New buggy and two single harnesses.

The finest assortment of fancy baskets at Sutherland's bookstore.

Eldredge keeps a fine line of cigars and toilet goods.

The pocket atlas is replete with detailed information on every subject of general interest and is a complete geography showing the relative positions and size of every body of water and land on the globe—Given away with every full suit of clothes purchased.

The finest line of ladies' clothes, tricot flannels, etc. in the city at ARCHIE REID'S.

Now is the time to buy your underwear. The place to buy it is at Foote & Wilcox's. Scarlet wool from 75 cents up

Religious.

—Religious services at the Baptist church this evening at 7:30. All are invited.

—Janessville City Lodge No. 90, I. O. O. F., occupy Old Fellows' hall this evening.

—Oriental Lodge No. 22, Knights of Pythias, assemble in regular weekly session this evening.

—Western Star Lodge No. 14, A. F. and A. M., regular semi-monthly communication this evening—Masonic hall.

—Messrs. Johnson & Cantwell have taken a yearly lease of Lappin's music hall, and intend to use it this winter as a public place of amusement.

—Rev. C. B. Wilcox, formerly of Court Street M. E. church, now of Oakbrook, will conduct the funeral service of little Mabel Leonard this afternoon.

—The social dancing party of the employees of the Wisconsin shoe factory will be held at Cannon's hall this evening; and a pleasant time they will have.

—The autumn party of the Janessville Concordia society will take place at Concordia hall this evening. The committee has made arrangements to accommodate all their invited friends.

—During the absence of Mr. Blount, the city treasurer's office will be run by City Clerk C. E. Church, who can be found at the office during office hours ready to receive and receipt for all city taxes.

—A load of hay was capsize on the St. Paul railway track at the Academy street crossing this afternoon, which made lively work for a short time to reload the hay and clear the track for passing trains.

—The Sun, Chicago's new daily, has made quite a hit if all the reports are true. The Stationer and Printer says that during the first two weeks it made \$7,000. Mr. Frank Whitaker is the agent in this city, and he has already secured over twenty-five subscribers.

—Paint and calumny make a vast difference in the appearance of a store, and J. A. Denniston, appreciating this fact, has just had his establishment freshened up by these agents. Mr. E. J. Keut did a good job there and the interior is a credit to him.

—The funeral of the infant son of Mr. and Mrs. Frank Chace took place a ten o'clock this morning; the service held at the house, 31 Locust street, Rev. A. J. Van Wagner, of the Congregational church conducting the same. The remains were taken to Oak Hill for burial.

—Our city merchants are using the Gazette very freely as an advertising medium, and we are pleased to note many flattering reports as to its effectiveness. The extra edition of the Weekly, which for the past three weeks has been mailed to every farmer in the county, will go to press to-morrow evening at six o'clock. If you want to say a word to all the farmers of Rock county, now is the time to say it.

—The Gazette is in receipt of a copy of the American Newspaper Annual for 1895, published by N. W. Ayers & Sons, of Philadelphia. The work is a complete encyclopedia containing 1,000 pages of valuable information. Statistics in great variety are carefully tabulated. The work should find a place in every attorney's library and would be of special interest to manufacturers and jobbers in all parts of the country, while it is indispensable to every publisher. The subscription price is \$3.00 delivered.

—The fourth annual party of the W. R. Sargent Post, G. A. R., will be held at Bowler City Rifles' armory on to-morrow evening. The committee is hard at work perfecting arrangements and are determined to leave nothing undone to make it pleasant and comfortable for all who attend. A large number of tickets have been sold; and the floor managers assure the public that the best of order will be maintained. This will be a rousing benefit for the relief fund of the post, and those who have not yet secured a ticket should lose no time in so doing. The grand armory boys are deserving of a rousing benefit on this occasion, as it is their only means of raising money for their relief fund.

—Mr. L. J. Kinney and bride are visiting friends in this city.

—Miss Nellie Barlow, daughter of Mr. and Mrs. E. G. Harlow, of the first ward, has gone to Lakeside, Illinois, to visit friends.

—Mrs. Ira Milmore, who has been spending some time in this city, yesterday returned to her home at Mitchell, Dakota.

—Mr. W. G. Wheeler, clerk of the circuit court, who has been visiting friends at Topeka, Kansas, returned home last evening.

—Col. Uri Clark, of Ithaca, New York is spending a few days in the city, the guest of his uncle, Mr. D. D. Wilson, of the Third ward.

—Mrs. A. J. Van Wagner, wife of the popular pastor of the Congregational church, who has been visiting at Kewanee, Ill., has returned home.

—Mr. Walter B. Vankirk, of Vallojo, California, who has been visiting relatives and friends in Janessville for a couple of weeks, returned home to-day.

—Mr. and Mrs. Anson Rogers went to Chicago this morning. Mrs. Rogers will remain a few days in the Garden City, and Mr. Rogers will proceed east to Grand Island, to be present at the marriage of his niece, Miss Frank E. Rogers and Hon. J. A. Blount, next Thursday afternoon.

—This morning at half past ten the ties which held Mrs. W. G. Longshore to this world were parted; her soul passed to the other land. Deceased was thirty five years of age, and had been a sufferer for some time from consumption. The funeral will be held to-morrow afternoon at her home on Pleasant street, fourth ward.

—Mr. Harold F. Sayles, the singing evangelist, left this morning for his home in Ypsilanti, Michigan, where he will rest for a week before confining his labors. Last evening he preached a farewell sermon to those who had been recently converted. He took for a text, I Timothy, VI:12, "Fight the good fight of faith, lay hold on eternal life." The discourse was well adapted to his hearers, and was a fitting farewell to his many friends in Janessville.

—Ex-Mayor Alex. Richardson, and Miss Helen R. Porter, for a number of years

THE WATER WORKS.

Further Agitation Looking to the Building of Water Works in this city.

The Talk at the Business Men's Meeting Last Evening.

Further Report from Prof. Smith—Letter from Messrs. Goodhue & Birney.

The one important question which should not be lost sight of at the present time, is, do we want water works, and if so, are we willing that they should be constructed by a private company with the privilege of buying them at any time after completion.

The tobacco convention absorbed so much time and attention last week that the water works were necessarily neglected by the committee having the petitions in charge, so that the report at the business men's meeting last night was not as complete as it otherwise would have been.

The matter of a supply and all the little details that enter into a contract of the magnitude and importance of a water system are questions that will require careful consideration, and will require proper treatment at the proper time. The important question now is, are we willing to have water works? The Gazette endorses the sentiment that these improvements which we lack as a city are necessary to its permanent growth and prosperity, and will do more to increase our population and add to the value of our real estate than anything we can do.

If a private company is willing to invest \$150,000 in water works, and it is found that a large majority of our tax payers and voters are willing that they should do so, under proper restrictions, let us make the sentiment of the majority unanimous and start out on a new era of progress and prosperity.

At the meeting of the Business Men's association last night, President Norcross stated that the ward committees were meeting with good success in obtaining signatures in favor of water works, but there seemed to be a lack of disposition on the part of some members to devote the time to the matter which they ought in canvassing the city. Owing to the stormy night, the discussion was continued until next Monday evening, when it is hoped that the ward committees will be ready to make a complete and final report.

On last Saturday a driven wall was put down fifteen feet at Spring Brook, at the point where Prof. Smith procured water some days ago for analysis, and which he styled the "first spring" and a quantity of the water from the driven wall sent to the professor for analysis. Yesterday Prof. Smith sent the following as the result of the analysis:

TABLE PER MILLION OF WATER (BY WEIGHT).

Free ammonia	.....	0.01
Alb. ammonia per million	.....	0.02
Chlorine (cal analysis)	.....	0.03
Chlorine (cal analysis)	.....	0.04
Oxygen consumed (cal analysis)	.....	0.05
Oxygen consumed (cal analysis)	.....	0.06
Average	.....	0.07

Grains per U. S. gallon, 231 cubic inches.

First analysis	.....	10.3
Second analysis	.....	10.3
Average	.....	10.3

Prof. Smith, in his letter, says: "As compared with a first-class artesian water of this vicinity, I will select Rockford, which has:

Free ammonia per million..... 0.01  
Alb. ammonia per million..... 0.02  
Grains of solids per gallon..... 10.3

The water you sent, therefore, is not bad at all, but compares very favorably with that of Rockford. If you should happen to compare with figures already published of that water, the difference is apparent, not real, owing to the methods of computing the total solids in the full analysis given to the Rockford council. This sample of water is remarkable for the small amount of organic matter. The effect of filtering through a good deal of soil is evident. As I said the other night, it water is well filtered, vegetable organic matter is not so deleterious, but filters, especially artificial, are treacherous things. We hope that Janessville is to get something first class, and it seems as though the question was not a hopeless one."

From a letter written by Messrs. Goodhue & Birney, of Springfield, Mass. it appears that the question of artesian water will be an easy one to settle. Under date of October 17th, they write as follows:

"As we wired you to-day, we will drill the artesian wells, and do such other things necessary to obtain the best quality of water. I stated to the gentlemen present at my first visit to your city, that this was the all important matter. It is the food for future success. Now it seems to me that should we build the works, our interest in this respect would be mutual. In order to make the works pay a fair return of the money invested, we must not only give the people good water, but the very best obtainable. In order to make a success of a project of this kind it must be popular with the people. The people must support it, it supported at all. Therefore the people must be fairly treated and their wishes gratified so far as they can be, and not impair the work. So in the matter in quality of water we are in unison."

"We will, therefore, either bore artesian wells, take water from Spring Brook, or, if necessary, from Popo's Springs—I think this was the name of the spring some two miles up the river. These points, as to the source of supply, should require very careful consideration. A mistake here is vital, and we will leave this to be settled by a committee from your city government or, such committee as they may elect and we can then mutually agree, no doubt, on the source. The matter of artesian wells may be correct. We are willing to try the experiment, and will take any source thought best, within two miles of the center of your city."

From this it appears the only question for our people to decide is whether we want the water works, or not. All other details can be easily arranged by the authorities on a basis of mutual benefit. The meeting, at the conclusion of the reading of these documents, and informal discussion, adjourned for one week, when the matter will be further discussed.

Our landlady was attacked with rheumatism. Her relief was almost immediate after taking a dose of Chamberlain's Pain-Expeller. She was well and after a few days she was well. W. P. Hammond, Clerk of the West End Hotel, 303 and 305 Madison St., Chicago, Ill.

Go to Eldredge's drug store on Main street for pure drugs and medicines.

TOBACCO.

A Good Week for Farmers, but Quiet Among Dealers.

Ontario Markets and Crops.

—JANESVILLE.

The new crop is coming down now so that little danger exists of the various ailments to which the new leaf is subject. That which was hung early is now fast enough along to give a fair idea of the crops quality. One hand which was picked at random from a shed near this city and shown to President E. N. Phelps, of the New England Tobacco Growers' association, was pronounced by him to be fully equal to most Sumatra. Indeed the hands of Sumatra which were put with it, lost rather than gained by the comparison.

If all the Wisconsin leaf turns out like this there will be no need for an increase in duty on imported tobacco. It is not probable that the average year has been so large that the state can furnish her accustomed supply of fine goods even though some of her yield be damaged.

The crop in Pennsylvania and other eastern states may be, as the Lancaster New Era says, "better than last year's," but when the Examiner says that a large quantity of the leaf will be found damaged by rust or hail, and the New Era disputed the assertion on the ground that it was not bad enough, there is a rather discouraging prospect for the last year's leaf.

Few sales have taken place here. Last week it was reported that Conrad & Jones had sold 250 cases of wrappers, but those gentlemen say that the only foundation for the story is that they sold 10 cases of fillers to an Indianapolis firm. Offers of 14.5 and 2 cents for new goods have been made but refused.

A pronounced revival of the export business took place this week, resulting in sales of about 1,500 cases. They consisted of old stock principally, a small portion only being made up of '94 Pennsylvania. The prices paid ran from 5 to 9 cents weight.

In home trade tobacco business remained fairly active with sales of about 2,000 cases, nearly one-half of which were old stock. Few tobacco moves draggingly. It is evident that the Sumatra regime is not broken by the virtues of the '94 crop, and as there is a great stock of Sumatra to select from, and prices are quite acceptable with an accompanying stock of seed wrappers, nevertheless even with this small piece in which the '94 crops are moving, holders of wrapper tobacco, not discouraged by white veins, need have no fear of losing money. The quantity of fine seed wrappers is small, it will fill the '95 crop yields a new supply, better or worse.

Several dealers and growers from Wisconsin were in our market last week with samples of their '94 tobacco. They secured the market for themselves, but not believe in tobacco papers; they don't read them, and even if they do, they put little trust in them. They are sure the people want their tobacco and the paper is only a device to get them. When they are thoroughly worn out and exhausted after having tramped around the market for days, and at last received offers far below what they might have received had they informed themselves as to the state of the market, then they go to the office of this paper, asking for a publication of the names of the men who had the audacity to offer them filler prices for their wrappers.

Sumatra—No change; activity continues. Sales 200 cases; quotations, \$1.17 to \$1.65.

Havana—Very active. Sales, 1,000 cases; quotations, 25 cents to \$1.20. United States Tobacco Journal.

It turns out after all, on the examination of the New York state crop of 1894, that it holds its own with the reports of the Havana seed tobacco raised in other states in the year mentioned. It is improving all the time, as the samples recently drawn show, while the reports relative to the 1894 Wisconsin crop are not as favorable, it seems from recent advice, as was anticipated some weeks ago, that the 1894 New York state Havana seed is turning out splendidly and compares favorably with the best crops produced anywhere in this variety.

The samples of the 1895 crop in this section which we have seen are fine, very much like the 1892 crop raised here and that was the best crop ever raised in our state.—Baltimore Herald.

—OHIO.

The election occupied the attention of tobacco men as well as others, and in consequence few sales are reported for the past week. Old goods are likely to soar higher, rather than fall below prevailing figures which seem to be well sustained. The '94 Zimmerman's Spanish seed coming to the valley has made a fine coming to fairly prove its merits. The best grades of this variety, grown in '94, are held by planters at 15 to 20 cents, and are being sold at 12 to 15 cents. Little Dutch is almost entirely sold out of the hands of planters, but the few remaining crops are held at 12 to 15 cents. Very little Seedleaf is held by growers, and prices are nominal.

The new crop, including all varieties, is surprisingly beautiful. Zimmerman's Spanish especially seemed literally to have surpassed itself.

Planters have commenced stripping.—Baltimore Bulletin.

PENNSYLVANIA.

The volume of business in this market was again larger during the past week. Although no large single sales were made, numerous small lots and packages were sold, aggregating 1,173 cases. Just now seedleaf seems to have the call. Prices for the whole are rather higher for this class of tobacco, running leaf selling from 8 to 10 cents. Havana seed is not quite so firm, and slight concessions can be obtained. The price for the goods of ordinary running lots is from 8 to 10 1/2 cents.

It is rather too soon to assert confidently, because cold weather is needed to set the colors of the current crop, but so far as observation and inquiry go, we believe the amount of white vein in this year's crop will be very small. We have not met one person who has seen any. So far, at least, the crop seems safe, and the probabilities seem to be that it will remain so.—Lancaster New Era.

—CONNECTICUT VALLEY.

Fine weather continues and most of the tobacco in the valley has to its best cured date that all fears as to its being injured by being frozen have passed. If the leaf can be raised the necessity of going abroad for fine leaf will be obviated. To do this the grower must have some encouragement from the dealers. They don't get it. The jobber will use every effort to buy at starvation prices that which is really worth a good round sum. We have known them to haggle over a crop a long time to get it 10 cents or 12 cents that should be worth three times that amount.

The grower is discouraged. He cannot sell a fine desirable crop for much, if any, more than his neighbor gets for a coarse, heavy class of goods. Let the trade show any proper appreciation of fine service.

THE WATER WORKS.

Further Agitation Looking to the Building of Water Works in this city.

The Talk at the Business Men's Meeting Last Evening.

Further Report from Prof. Smith—Letter from Messrs. Goodhue & Birney.

The one important question which should not be lost sight of at the present time, is, do we want water works, and if so, are we willing that they should be constructed by a private company with the privilege of buying them at any time after completion.
